Toluwani Michael Alese

Cloud DevOps Engineer | Automation | IT | Containers
Nigeria

Summary

Passionate and detail-oriented Cloud DevOps Engineer with a strong foundation in cloud technologies, automation, and infrastructure management. Adept at developing and maintaining CI/CD pipelines, implementing Infrastructure as Code (IaC), and managing containerized applications. Enthusiastic about site reliability engineering, platform automation, and cloud-native solutions. Looking to leverage skills in cloud infrastructure, monitoring, and automation to support large-scale deployments and cloud migrations.

Technical Skills

- Programming: Python, Bash, JavaScript
- CI/CD Tools: Jenkins, GitHub Actions, CircleCI
- Infrastructure & IaC: Terraform, Ansible, Kubernetes, Docker
- Monitoring & Reliability: Prometheus, Grafana, ELK Stack, Uptime Kuma
- Cloud Platforms: Azure, AWS, Google Cloud Platform, DigitalOcean
- DevSecOps: OWASP, SonarQube
- Databases: MySQL, MongoDB
- Version Control: Git, GitHub

Experience

Porchplus

Associate DevOps Engineer
June 2025 - Present (1 month)

ExcellentBridge

DevOps Engineer
February 2025 - Present (5 months)
Lekki, Lagos State, Nigeria

- Developed and maintained CI/CD pipelines to streamline deployments.

- Managed cloud infrastructure and automated provisioning with Terraform.
- Implemented monitoring solutions to ensure system reliability.
- Deployed CI/CD pipelines using Azure DevOps for rapid and reliable releases.
- Utilized Azure Resource Manager (ARM) templates and Terraform to automate infrastructure provisioning.

Allof Health

Co-Chief Technology Officer

November 2023 - Present (1 year 8 months)

Nigeria

- Oversee technology strategy, cloud infrastructure, and DevOps processes.
- Ensure high availability and reliability of cloud-native applications.
- Lead cloud migration and automation initiatives for scalability.
- Entire architecture of the whole system
- Designed and managed Azure-based infrastructure, leveraging services like Azure Kubernetes Service (AKS), Azure DevOps, and Azure Monitor.
- Led migration of key workloads to Azure to ensure scalability and reliability

HostVille Nigeria

1 year 10 months

DevOps Associate

November 2023 - January 2025 (1 year 3 months)

Ikeja, Lagos State, Nigeria

- Developed and deployed scalable IaC solutions using Terraform.
- Automated server configuration and application deployment using Ansible and Bash.
- Monitored system uptime with Uptime Kuma, ensuring 99.9% availability.
- Streamlined deployment pipelines, reducing manual intervention.

Engineering/Infrastructure Intern

April 2023 - October 2023 (7 months)

Ikeja, Lagos State, Nigeria

- Assisted in configuring and managing containerized applications with Docker and Kubernetes.
- Contributed to cloud cost optimization strategies, reducing expenses by 15%.
- Participated in incident response and root cause analysis to improve system resilience.

SmartTeller

DevOps Engineer

October 2022 - January 2023 (4 months)

Remote

- Deployed APIs on AWS using CI/CD pipelines, ensuring seamless integration with mobile applications.
- Conducted stress tests and optimized system performance for API services.

Sterling Oil Exploration & Energy Production Co. Limited

Information Technology Intern

May 2021 - November 2021 (7 months)

Lagos, Nigeria

- Provided IT support and implemented basic automation scripts.
- Assisted in maintaining network infrastructure and troubleshooting IT issues.

Education

Udacity

Nanodegree, ALX-T Cloud DevOps Engineer · (2022 - 2022)

University of Lagos

Bachelor of Engineering - BE, Electrical and Electronics

Engineering · (2016 - 2021)
